The screenshot displays a digital Magic: The Gathering interface. The central focus is the 'Warstorm Surge' card, which is an Enchantment with a mana cost of 5 (represented by a lightning bolt and a lightning bolt with a lightning bolt) and a D12 die icon. The card's artwork depicts a stormy, rocky landscape with lightning bolts striking down. The card's text reads: "Whenever a creature enters the battlefield under your control, it deals damage equal to its power to target creature or player." Below the text is a flavor quote: "Listen to the roar! Feel the thunder! The Immersturm shouts its approval with every bolt of lightning!" and the artist's name, Raymond Swanland.

On the left side of the interface, there is a panel with the following elements:

- 0 Unlocked
- 90 Cards in Deck
- Three small card thumbnails
- SAVE CHANGES button
- BACK button

On the right side of the interface, there is a panel with the following elements:

- 0 Locked
- ZOOM OUT button
- A small card thumbnail showing a creature with a power of 7 and a toughness of 11/14
- UNLOCK CARD button

The screenshot shows a digital Magic: The Gathering interface. The central focus is the card **Riku of Two Reflections**, a **Legendary Creature — Human Wizard** with a mana cost of 2 (one blue, one red) and a power/toughness of 2/2. The card's abilities are:

- Whenever you cast an instant or sorcery spell, you may pay $\{1\}$. If you do, copy that spell. You may choose new targets for the copy.
- Whenever another nontoken creature enters the battlefield under your control, you may pay $\{1\}$. If you do, put a token that's a copy of that creature onto the battlefield.

The card is set against a background of a stone bridge over a river. On the left side of the interface, there are two panels: the top one shows "0 Unlocked" and the bottom one shows "90 Cards in Deck" with a "SAVE CHANGES" button and a "BACK" button. On the right side, there are two panels: the top one shows "0 Locked" and the bottom one shows a "ZOOM OUT" button, a card thumbnail with numbers 7, 11, and 14, and an "UNLOCK CARD" button. The name "lizzy" is visible in the bottom left corner of the card's frame.

Cannot unlock this even if I paid for it - sucks!. A couple new decks to keep the game fresh.. Instead of earning your decks while in game you can buy them at a small price. With this downloadable content you can unlock this deck and use it at your discretion forever. This is a great thing to do but you might be wasting your money if you already know that you can unlock the deck already in game while just playing. This purchase just makes customizing decks easier and more convenient since you'll be unlocking the deck right away. I do suggest buying this little shortcut if you are too lazy to earn it while in game or think you can't earn it while in game. If you plan to play online then its a great idea to buy this downloadable content to make sure your not at a disadvantage while playing your opponents. To unlock decks in game you have to beat certain players in the campaign which at times can be a challenge but very rewarding since you unlock decks. This DLC deck unlock is there if you need it and if you know you don't then don't buy it and earn all the decks while in game.
